OVERVIEW

BASSO Series models allow users to choose the most adequate subwoofer setup for any given situation from within a family of products with common finish, design solutions and performance philosophy, as well as shared rigging and transport accessories.

BASSO10i is a very compact 10" subwoofer that delivers serious SPL levels for installations that require professional sound reinforcement in spaces where integration and size are key requirements.

The 10" low-frequency transducer allow this compact, powerful box to deliver high-quality audio signal with maximum electro-acoustical efficiency and excellent LF performance.

This compact form-factor cabinet measures 145mm deep allowing for unobtrusive, discreet integration into any location for professional installations thanks to the dedicated (included) wall-mount accessory for convenient, quick setup operations.

Built with the same durable, rugged construction as all **BASSO** family members, **BASSO10i** cabinet is made with 15 mm birch plywood and finished with exclusive IDEA Aquaforce textured painting. The 1.5 mm weatherized steel grilles with Aquaforce coating and an internal foam panel provides long-term protection under any ambient conditions.

The wall-mount U-bracket accessory allows for convenient installation of **BASSO10i**

ACOUSTICAL MEASUREMENTS

FREQUENCY RESPONSE

This graph shows the frequency response for a 1-watt swept sine signal in a semi-anechoic environment (2rt), measured at 3 m and scaled down at 1 m.

In order to provide more precise information for acoustical analysis, a 1/6 octave smoothing has been applied.
